Policy on Research

Bijni College, Bijni, Chirang, Assam

Introduction

Research activities help to create and disseminate new avenues in knowledge, promotes innovation and these will motivate better learning and teaching among faculties and students of Bijni College, Bijni. Research is the foundation of knowledge that brings new energy, builds state of the art facilities, promotes research publications, develops collaborations and becomes part of active community that shares the mission objectives. Taking these into considerations, Bijni College, Bijni frame to implement its Research Policy.

The research cell was created on 18.03.2021 to promote and address research activities at Bijni College Bijni, Assam. The objective of the cell is to monitor and administer research programs for faculty and students and encourage them to have national approach in their academic activities. The research cell of Bijni College has been trying to nurture research culture in the institute by promoting research-based activities on emerging trends, keeping in view a multidisciplinary facet. It also aims to enhance the general research capacity by way of participating in workshops, webinars, conferences, paper presentations, talks/ discussions, publications, etc. As the institute is primarily a degree college, it has been trying to engage the young undergraduate students in basic research projects as well. A number of faculty members of the college have been carrying out research in their respective areas of interest.

Research Policy

To initiate efforts to promote a 'research culture' among the faculty and students of the college. In order to create awareness and opportunities in research among the faculty and students of the college the Research cell plans to -

Facilitate the participation of the faculty and students in research and research related activities by enhancing their research capability through the organisation of various research capability enhancement / programmes in the forms of Webinar, workshops, training programmes, etc.

To motivate the faculty members to take up research projects and improve their knowledge, skills for professional growth.

To share current information about relevant research funding opportunities.

To encourage the faculty to coordinate and participate in capacity building programs

To foster research collaboration within and across faculty members.

To encourage the faculty and students to go for high quality research publications so that they can share the theoretical and practical findings of their research with others.

To identify the emerging areas of research and encourage the faculty members to undertake research in these areas.

To offer a suitable platform to the faculty members, scholars and students of Bijni College, Bijni to publish their research findings and encourage them to bring to the notice of society issues of contemporary importance.

Conclusion

The research cell of Bijni College plays an important role to achieve its goal of establishing a vibrant research and training atmosphere in its premises. The policy shall serve as an overall framework within which research activities may be carried out. It also aims to identify thrust areas of research having social relevance and thereby supplementing the Vision and mission of the college. The Research policy also emphasises contribution towards society and to the nation at large.
