

## **Bijni College Economic Association**

### **Department of Economics, Bijni College::Bijni**

The Bijni College Economic Association (BCEA), established in the year 2002, is a dynamic academic body operating under the Department of Economics, Bijni College. It comprises the faculty members and UG students of the department and serves as a platform for academic engagement, intellectual growth, and skill development.

### **Objectives and Vision**

The primary objective of BCEA is to nurture leadership qualities, organizational capabilities, teamwork, and collaborative spirit among students. The association provides an environment where students take the lead in planning, organizing, and executing a wide array of academic and co-curricular activities. This student-centric approach not only instills a sense of responsibility and discipline but also helps them to grow into confident and capable individuals.

### **Activities and Initiatives**

Under the active guidance of faculty members, the association organizes a range of activities that supplement classroom learning and contribute to holistic student development. Some of the major initiatives conducted under the banner of BCEA include:

- **Seminars and Workshops:** Regular seminars and workshops are organized on current economic issues, policy matters and emerging areas in economics, where students are encouraged to present papers and engage in discussions.
- **Educational Tours:** Field visits and educational excursions are conducted to help students connect theoretical knowledge with real-world applications. Destinations are often chosen with relevance to economics, development models, or industrial and commercial activities.
- **Surveys and Research Projects:** Students participate in surveys and small-scale research projects under faculty supervision. These activities offer hands-on experience in data collection, analysis, and interpretation.
- **Exhibitions and Displays:** The association organizes exhibitions on economic themes, showcasing student-made models, charts, and info graphics to spread awareness and encourage creative expression. It maintains the departmental mini museum “MUSEO-CRAFT”
- **Interactive Events:** Debates, quizzes, essay competitions, and group discussions are frequently held to foster a culture of healthy academic competition and critical thinking.

### **Student Empowerment and Engagement**

One of the unique features of the BCEA is that students are entrusted with the responsibility of managing and executing most of the association’s activities. From planning to coordination and reporting, the students are actively involved at every stage, with teachers playing a facilitative and mentoring role. This approach helps students to firstly develop leadership and decision-

making skills; secondly enhance communication and interpersonal abilities; thirdly learn the importance of time management and resource utilization and finally understand the value of team spirit and mutual cooperation

## Conclusion

The Bijni College Economic Association acts as a bridge between theory and practice, between the classroom and the outside world. By engaging students in meaningful academic and extracurricular ventures, it plays a crucial role in shaping well-rounded, socially aware, and professionally prepared graduates. The association continues to uphold its mission of fostering academic excellence and nurturing future leaders in the field of economics.
