

Annual Green Campus Initiatives Action Plan 2025-2026 BIJNI COLLEGE::BIJNI

The Green Campus Initiatives Action Plan of Bijni College encompasses a range of sustainable practices aimed at reducing the ecological footprint and promoting environmental conservation. Both College Environment & Climate Cell (CE&CC) and Swachh Campus Initiative Cell (SCIC) of Binji College have been entrusted with the responsibility of formulating action plan and its execution for the sustainable development and environmental conservation. In a joint meeting of CE&CC and SCIC in presence of Principal and Co-ordinator of IQAC, Green Campus Initiatives Action Plan for the academic session 2025-2026 has been adopted on 21/06/2025.

Action Plan-1

Banning Polythene Bags

Effort will be given to combat plastic pollution, driven by their non-biodegradable nature and harmful microplastic formation inside and outside of college campus.

Action Plan-2

Fruit Tree Plantation Program

Fruit Tree Plantation Program will be organised. It will give significant environmental benefits, primarily by sequestering carbon, improving air quality, boosting biodiversity.

Action Plan-3

Energy Efficiency:

Implementing energy-efficient buildings and equipment to minimize energy consumption and greenhouse gas emissions.

Action Plan-4

Waste Reduction:

Undertaking waste reduction and recycling programs to manage paper waste.

Action Plan-5

Renewable Energy:

Utilizing renewable energy sources, such as solar panels, to power campus infrastructure.

Action Plan-6

Sustainable Transportation:

Encouraging the use of electric vehicles and other sustainable transportation options to reduce carbon emissions.

These initiatives not only contribute to environmental conservation but also enhance the educational experience by providing a healthier and more sustainable campus environment.
